

Jane Doe

Frontend Engineer

Los Angeles, USA

jane.doe@example.com · +1 555 0100 · example.com/jane-doe

PROFESSIONAL SUMMARY

Frontend engineer with six years building interfaces for data-heavy products. Works in TypeScript and React, and spends as much time on the parts a user never sees — loading states, error paths, keyboard access — as on the ones they do.

EXPERIENCE

Senior Frontend Engineer Mar 2022 — Present

Northwind Analytics

Los Angeles, USA

- Leads the interface of the reporting product, used by about 40 customer teams.
- Rebuilt the chart layer so a dashboard renders from cached data while the fresh query is still running.
- Introduced the component library the three product teams now share, and wrote its contribution guide.
- Runs the accessibility review before each release: keyboard paths, focus order, contrast.

Frontend Engineer Jan 2020 — Feb 2022

Halden Retail

San Diego, USA

- Built the checkout flow for the web store and the forms behind it.
- Replaced a hand-maintained spreadsheet of product copy with an editor the merchandising team uses directly.

Junior Developer Sep 2018 — Dec 2019

Kanal Studio

San Diego, USA

- Built and maintained client sites, mostly marketing pages and small catalogues.

EDUCATION

BSc Computer Science 2014 — 2018

University of Example

San Diego, USA

SKILLS

Core: TypeScript, React, CSS, Testing Library, Accessibility

Tools: Vite, Playwright, Figma, Git
